Why Choose Ocean Designs?

Beautifully Hand Crafted Woven Furniture

Ocean Designs only use the highest grade natural materials, including rattan, banana leaf, kubu, water hyacinth and teak, selected not only for their beauty, but also their intrinsic durability.

Look below the surface of a piece of Ocean furniture and you will find solid wood frames with screwed and glued construction for a truly hard-wearing product.

Designed for Comfort

We feel that good looks alone is not enough; our designers have gone to great lengths to create real comfort, using correct dimensions and angles coupled with the best upholstery techniques and fillings.

Our cushions are made in house, to customer requirement, with all fabrics fully patterned matched.

The level of comfort is what sets our product above others and ensures you experience true relaxation, long-term.

Luxury Fabrics & Extensive Choice

Ocean Designs works with some of the world's top fabric brands to offer an exciting and varied selection of fabrics. With more than 100 fabrics to choose from, you will be spoilt for choice and certainly able to create the perfect look for your home.

All our cushioning is designed and produced in our Nottingham factory by our skilled upholsterers.

We also offer a bespoke service, so if the fabric you desire isn't amongst our selection, our upholsterers will happily finish your suite in a material of your choice.

Our Guarantee

As an assurance of our product quality and for extra peace of mind, Ocean Designs offer a full 2 year guarantee on all Conservatory Furniture Collections.

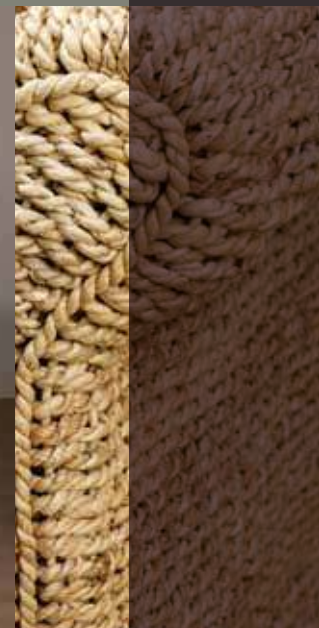

The Environment

All Ocean products use materials from fully renewable and sustainable resources. Rattan is one of the few truly renewable rainforest materials, when rattan is harvested it regrows naturally. In short, rattan is truly self-regenerating. All timber used is harvested from managed forests and our factories are independently audited to ensure the required quality is maintained and good working practices adhered to.
